

JUMPING MOUSE CHILDREN'S CENTER

2022 IMPACT REPORT

A message from the Jumping Mouse team

Everyone has lived experience with mental health, which makes the work at Jumping Mouse Children's Center (JMCC) so important. Your connection to JMCC is vital to our efforts to care for and empower our most vulnerable community members - children. Through your generosity, we have been able to continue serving our children and families and make an impact in our Jefferson County schools. The ripple effect of Jumping Mouse reverberates throughout the community - from the relationship a therapist nurtures with a child on a weekly basis to the bonds created in family systems and in schools, we know that children learn to trust themselves, advocate for their needs, modeling healthy ways to move in our world.

PROJECTS

DETAILS

OUTCOME

Increase Access

Added two school-based rooms.

- Opens space for clients in Chimacum and Brinnon, providing more access to kids throughout the county.

Master's Level Program

Retained an extern as staff and welcomed two new interns.

- Increased sustainability of our program, and outreach of the therapeutic model.

"Being an intern at Jumping Mouse has been such a gift. I've felt supported and encouraged to grow my clinical mind through supervision and consultation where I feel empowered as well as guided with wisdom and encouragement. The work with the children itself is almost indescribable. They truly lead the way here and each relationship is uniquely its own. This really has been such a great first place for me to have landed as I begin my journey as a child therapist."

We couldn't have
done it without your
generous **support.**

Thank you

to all our donors,
grantors, supporters
and volunteers.
